Snow Piled in Huge Drifts by the Blizzard.

Terrible Tales of Suffering and of Death.

Wrecks in the British Channel-A Water Famine at Buffalo, N. Y .- Perilous Position of Men at Milwaukee.

CHICAGO, Feb. 12 - (By the Associated Press.) A genuine blizzard set in here last night and continues unabated. A flerce gale swept from the northeast, accompanied by wet, blinding snow which is piling up in drifts in the streets, delaying incoming trains and blocking street-car traffic. It is the worst storm of the winter.

At noon the wind was blowing sev enty miles an hour, with the coldest weather of the year. Many pedestrian were injured by being carried off their feet in the gale. Many carriages were overturned and the occupants hurt. The waves on the lake are extremely

Advices to the Associated Press show that the storm is very widespread. Reports from southern Illinois, southern and central Indiana, Missouri and Arkansas all tell of the same story. The situation promises to be aggravated by a sudden drop in temperature, covering the ground with a coating of ice. Traffic is at a standstill. The tele-graphic situation is serious. There are no wires south and very few in any

During the afternoon the storm here increased in violence, the wind at times rising to a velocity of seventy-five miles an hour and the snow growing heavier. It is the worst storm that Chicago has ever known, and by clock this afternoon business of all

kinds was at a standstill.

Trains are greatly delayed and tonight most of the Eastern roads slid not start trains. The New York limited on the Eric pulled out at 2 o'clock with two engines and three hours later was twelve miles from the city stuck fast. Two additional engines were sent after it did no good. The in road stuck in a snowbank a mile from the depot and six engines gave it up as a bad job. The Rock Island started one passenger train and it got back after running something over a mile in three hours.

A wreck occurred on the Lake Shore road at Seventy-ninth street, owing to the impossibility of the engineer to go ahead, and one man was badly crushed and several freight cars splin-tered. On the streets collisions and accidents were numerous.

The new addition to the postoffice was badly damaged, windows being blown in and the glass roof shattered. Snow an inch deep covered the floor and water softened the plaster and caused it to fall.

Reports of suffering and death came in from all parts of the Territory. Mrs. Fannie Spencer, a homesteader near Cross, was found frozen stiff. Many are living in tents and their condition is awful. James Mulligan, near Perry, was found Fozen to death and his partner, Harvey Newcomb, died from exposure. At Ponça, Mr. Cramer and two children were found frozen stiff in coyotes' bur-

rows, ten yards from their abode. Henry Melton, a cowboy who was with Buffalo Bill at the World's Fair, was discovered by a party of hunters early this morning, dead under his horse. At Anadarko, two Indian pupils were found yesterday buried under a snowfound yesterday buried under a block bank. Upon being taken to the house

MILWAUKEE, Feb. 12.—(By the Associated Press.) Swirling clouds of snow in which there have been but one or two rifts since daylight, have shu from view the house at the in-take tunnel, one mile from the shore of the lake. In this building are nineteen workmen—at least there were on Sun-day night. There is considerable fear expressed that the tragedy of last spring may have been repeated. At that time fourteen workmen were caught in an air shaft under water, to which they went for safety when it was apparent that the house would be car

This atternoon, at 4 o'clock, the dark outlines of the crib were plainly seen from the North Point pumping-station, and at 10:30 tonight a white light is visible which indicates the building is intact, though the waves are no doubt washing over it. It is more stoutly built than the shell which succumbed to

last spring's gale.

Later.—Lights were seen at the crib at about 2:30 this (Tuesday) morning and although it is impossible to com municate with the place it is reasonably certain the nineteen men out there are safe. The storm has almost entirely subsided.

The steamer Roancke of the Detroit, Grand Haven and Milwaukee Railroad Company, which left here at 11 o'clock on Sunday night, is reported overdue at Grand Haven. The vessel should have reached there early this morning. Some fear is expressed for her safety as the storm has been one of the worst of the year. Besides her crew, the only passengers known to be aboard are members of the Leonzo Bro's. Theat ical Company.

Union Pacific Affairs a Hard Problem to Solve.

The Seigniorage Bill is Freed of All Objections. Wool-growers' Protest Signed by Nav

Joes-Senator Gray on ex-Minister

Stevens-Eulogies on Sen-

ator Stanford.

By Telegraph to The Times WASHINGTON, Feb. 12 .- (By /the Associated Press.) Congress will have a hard problem to solve soon in complications which have arisen over the stock of the Union Pacific. During the past week there has been much quiet discussion of the matter, spurre on by the attention given to other em barrassments in the railroad situation, arising from the management of the roads by the receivers.

C. P. Huntington has been in Wash ington several days in consultation, part of the time with Senator Brice, chairman of the Senate Committee on Pacific Railroads, also with other Senators and Representatives.

The result of his visit was the intro duction of a bill for refunding the debt of the Union Pacific. Mr. Reilly of Pennsylvania, chairman of the House committee, has conferred frequently with Brice on the subject and is fully informed of the views of the Senate committee.

Several schemes for settlement have been proposed to the House committee, but no one of them has yet received sufficient backing to justify its notion as a probability. Said one of the members of the

"This matter is going to be troublesome. The Fifty-third Congress will have to deal with perplexities greatly enlarged by the strong Populistic sentiment in Congress, which re gards all corporations, particularly the railroad corporations, very severely.

Jerry Simpson, the Populist leader, says the government should buy the Union Pacific outright and run it, and if it succeeded with it, it would be a step toward government control of railroads.

A new turn has been given the sll-rer discussion in the House by Mr. Bland's announcement that he will move at a later day to amend the move at a later day to amend the pending bill, so that sliver certificates may be issued only as sliver dollars are coined with the added authority to the Secretary of the Treasury to issue certificates in advance of the

coinage if he so desires.

This change is designed to overcomone of the main objections that Secre tary Carlisle has to the bill. This objection was shared by many members of the House to such an extent that the passage of the seigniorage bill was in doubt. The change now proposed by Mr. Bland obviates objections, so that the passage of the seigniorage bill

ls regarded as ortain.

The Hawaiian controversy occupied the principal time of the Senate today, Senator Gray opening his argument in defense of President Cleveland. His speech was devoted principally to an to prove Minister Stevens in the revolution, the Senator citing evidence of members of the provisional government to show that they were in daily consultation with the Minister previous to the revonation and expected the protection of the American troops in the plan to overthrow the Queen's governmento. Senator Gray did not conclude his speech, and will resume his argument

FIFTY-THIRD CONGRESS. REGULAR SESSION.

WASHINGTON, Feb. 12 .- (By the Associated Press.) SENATE.—A petition eigned by 30,000 wool-growers owning one seventh of all the sheep in the United States protesting against the

free-wool clause of the tariff bill was presented by Senator Cullom. Among the petitioners are the Navajo tribe of Indians, which owns 1,500,000 sheep. A petition against free iron ore and free lumber was presented by Senator Senator Gray of Delaware then ad-

dressed the Senate on the Hawaiian question. In his speech he said: "The evidence all goes to show that the annexation movement was confined to that comparatively small junta of able, intelligent and vicious men who, with the aid of the American Minister, accomplished, so far as they could, the object which they had in view. I want to say now that I believe Stevens is a good man, a good neighbor and an honest citizen, but he is not the most discreet man who ever occupied such a position in a foreign country. He knew the project was in hand and it is impossible for me to believe otherwise than that Stevens was in active complicity with the provisional gov-

ernment. Senator Pettigrew presented a reso ution, directing the Secretary of Agri-culture to report to the Senate the amount of wheat in the country on March 30, the total yield for the past year, and the amount now in the coun-

try. It was adopted. Senator Cockre'll presented a memo-rial of the St. Louis Merchants' Exchange, declaring that the present stag-mation in the country is due to the uncertainty of Congressional action on the tariff question, and praying that the matter may be settled as speedily

as possible.

A substitute for the Wilson Tariff Bill

was presented by Senator Gallinger. It declares that in view of the widespread industrial depression existing, bringing disaster to the manufacturing interests and loss of employment and suffering to the wage-earning classes, it is unwise to make any changes in the tariff law dur-

ing the present administration.

A message was received from the House, announcing the death of Congressman Houk of Ohio, and Senator

and condolence.

The Senate, at 4:40 o'clock, adjourned.

After the passage of a bill regulating the sale of intoxicating liquors in the District of Columbia, by special order, the remainder of the day was consumed in paying an appropriate trib-ute to the memory of the late Sena-tor Stanford of California. Those who took part were: Messrs. Tracey, Hil-born, Sibley, Blair, Wheeler of Ala-bama, Pickler, Smith of Arizona, Wilson of Washington, Loud, Bowers and Caminetti of California. At the con-clusion of the eulogies, as a further mark of respect, the House, at 4:15 o'clock, adjourned.

A report was circulated to the effect that refined sugar might be discriminated against to the extent of placing a lower tax upon it than upon raw sugar. A member of the sub-committee is authority for the statement that there was nothing in the story.

"If the raw article is taken from the free fist, and a duty fixed upon it." said a Senator, "there will be an increase in the duty on refined sugar, and it will probably be from \(\frac{1}{2} \) to \(\frac{1}{2} \) of a cent per pound higher than the raw sugar duty."

CALIFORNIA FRUITS.

White Interests Himself in Securing Protection Therefor. WASHINGTON, Feb. 12 .- (By the Associated Press.) to have the duty on oranges increased. Senator White says the fruit of California will be compelled to enter into competition with that of the Mediterranean and Mexico. The result would be that the foreign fruits would make it unprofitable to raise fruits in California. statement, written and signed by the Princess Colonna: "I authorize you to state that my sudden decision to leave France and come to America is due solely to a plot which I discovered that Prince de Gilatro Colonna, my husband, had formed to steal one of my children from me as a hostage, an individual having been employed by him to that effect, as well as to closely watch my movements.

Over 200 Officers and Men Killed and Wounded Bravery Displayed on Both Sides-The Government Reinforcing Nitheroy

By Telegraph to The Times.
BUENOS AYRES, Feb. 12.—(Copyrighted, 1894, by Cable and Associated Press.) Dispatches bring some details of Friday's battle at Rio. A general engagement was fought close to Nitheroy, the rebels engaging the government troops at close quarters. The fighting was desperate and is said to have resulted in the loss of 500 government troops killed and 200 insurgents. The rebels were finally compelled to re-

Cabinet and a crisis is reported be-cause President Peixotto decided to prolong the state of siege. Some the ministers may resign.

"THE CIRCUMSTANCE OF WAR" LONDON, Feb. 12.—The Times to-morrow will publish the following dispatch from Montevideo, dated Peb. 11:
"RIO DE JANEIRO. Feb. 9.—At 5o'clock this morning live hundred insurgents attacked Armacao and Ponta da Artia, in the vicinity of Nitherov Launches conveying the landing par-ties left the Island of Concelcao at 3:30 a.m., and succeeded in reaching the mainland without discovery, in half an hour. After heavy firing on both sides, the government troops retired, leaving five officers and forty men prisoners, and six officers and fifty

men killed. "At 5 o'clock, reinforcements of one thousand men arriving, the government troops again advanced under the heavy fire of rifles and machine-guns, a Krupp battery stationed on the Island of Caju, opposite Punta da Areia also being engaged Admiral da Gama further atempted to check the advance of troops by calling for reinforcements of one hundred men from Conceicao, and by sending armed launches from the cruiser Libertad, close to the mainland. These efforts stopped the advance and caused heavy losses to the government forces. Then their ammunition fell short, the fire slackened and the troops slowly gained

'After three hours' fighting, the troops were within half a mile of Ar troops were within hair a mile of Ar-macao and Da Gama decided to with-draw his sailors, finding it impossible to remain there on account of the over-whelming number of the enemy. The Libertad's armed launches continued to hold the troops, while the insurgents embarked at Armacao the Aquidaban covered the retreat. The Libertad's launches were close to Areia, and received the brunt of the enemy's fire. It was 11 o'clock before the last insur-gent embarked, after spiking the gov-erhment battery of heavy guns at Ar-

macao. "The insurgents' loss was five officers and thirty men killed, twenty officers and forty men wounded. It is impossigovernment is supposed to have lost fifteen officers and 150 men killed and many wounded. Da Gama has bulletwounds in his neck and arm, but they are not dangerous. I, myself, was slightly wounded in the throat by a Mannlicher bullet. I saw the first part of the action from the island of Conceleae and the latter portion on board the Libertad. Both sides displayed bravery, but the sailors were demoralized at the finish by the large number of the enemy, and fired wildly. Still, the withdrawal was orderly and without a sign of panic.

"The government claims a decisive victory, and today sent 1500 men to reinforce the garrison at Nitheroy. Admiral de Mello, with the Republica, is now at Desterro."

By Telegraph to The Times.

PARIS, Feb. 12 .- (By Cable and Associated Press.) A young man, acting from motives of revenge, exploded a omb at 9 o'clock tonight in the cafe beneath the Terminus Hotel, opposite the St. Lazarre Railroad station. The place was full of people at the time. A man who had dined in the cafe was seen to raise his arm and throw something into the middle of the room. A terrific explosion followed. The cafe was filled with smoke, and lying on the floor were a number of per-sons wounded. The bomb had landed upon a table, around which a party had been sitting. The persons grouped at this table suffered most. The in-jured numbered fifteen, nearly all

wounded in the legs.

The man responsible for the cowardly act has not been allowed to escape.

As soon as he had thrown the bomb he ran out of the place and darted away. The alarm was given, and a number of policemen joined in the chase. The fugitive drew a revolver and fired several shots, killing a workman and wounding a number of persons. One man who was struck was a policeman, and the wound is considered fatal. The man was captured when 150 yards from

urned others, and smashed glassware and plates.

Breton, on leaving the cafe, rushed toward the Rue de Rome. A policeman sitting on the top of an omnibus saw Breton, jumped to the ground and seized him. Breton turned on the policeman and fired a shot at him. The policeman grabbed him and both fell. While on the ground Breton fired another shot at the policeman and struck a woman who was passing. The woman fell to the ground mortally wounded. The policeman had been badly wounded by Breton's first shot and was unable to hold on to the prisoner. The latter, still brandishing his revolver, regained his feet and was likely to do further mischief. Headed by another policeman the crowd rushed forward to secure him. Breton again attempted to use his revolver but the policeman cut him over the face with a sabre, staggering him. He was then arrested. The mob demanded that he be lynched, and would have carried out their intentions had not a strong force of policearrived.

Five persons who were passing on the street at the time of the explosion were injured by flying fragments of glass. The inquiry before the commissaire showed that the bomb was constructed in the form of a sardine box and contained chlorate, powder and pieces of lead of the size of cherries.

Breton admitted that he was an Anand contained chlorate, powder and pieces of lead of the size of cherries. Breton admitted that he was an Anarchist and told the doctor who dressed the wound which he received from the policeman's sabre that his main object was to avenge Valllant, and that others will follow his example. Breton later was subjected to an examination by the Minister of the Intérior Minister of Justice, the chief detectives and others. He denied that he was the author of the crime, adding insolently: "I am an Anarchist. The sooner the bourgeoise burst up the better, but I know nothing. I did not enter the cafe. You can suppose I arrived here from Peking or from Marseilles, as you please."

ESTABLISHED TO LAST.
BOSTON, Feb. 12.—An evening news paper has a special from a Honolulu correspondent, dated February 3, con-sisting of an interview with President Dole, in which that gentleman maker everal points not hitherto brought out He dwells with emphasis on the claim that it was the Queen herself who was an insurgent. "She had rebelled against her own government. This revolt on her part was equivalent to abdication. There was then no government at all," said President Dole. Annexation or not, the correspondent

says, the provisional government was built to last, and was so looked upon from the first. No re-election of presi-dent will ever be allowed. As to plans for the future, Dole would state nothing of a definite character till he was set-at rest on all questions in which the Washington government may have

interest.

The first of the correspondence sub mitted is a letter from Willis to Gres ham on January 16, reciting the former's action in declining to recognize or participate in the celebration of the first anniversary of the provision

government.
In the second letter of the same date Willis writes to Gresham: "In the let-ter from Dole, dated January 11, the statement is made that on November 14 Thurston called on Gresham and inquired whether Gresham's letter of October 18 was authentic and was in-formed that it was. Thurston then asked Gresham if it was the intention of the United States government to employ force in restoring the Queen. Gresham declined to answer the ques tion, saying he would speak to the President and talk more fully later in the afternoon. Gresham informed Thurston that all he was at liberty to state was that Willis had no instruc-tions to do anything to cause injury to

life or property.
"Thurston said to Gresham: Your answer does not convey the information I requested. What I desire is to my government in action. know that force is to be used by you, their course of action will necessarily be different from what it otherwise rould be. The definite information that you intend to use force may be means of preventing you from using force and saving bloodshed. which Gresham replied: 'Our relations in the past have been pleasant and I want them to continue to be so in the future and be perfectly courteous to you, and I cannot at present answer Willis writes: "I do not know whether Thurston made this statemen

public in the United States at that time, but I do know that the first inmation this community has upon the ubject is contained in Dole's letter. In his letter on January 11 he said:
"Had your statement to Thurston been
made public here at the time (Novemer 24) when it was received, the excitement resulting from the warlke preparations of the provisional gov-ernment would have been allayed and the critical and dangerous condition

Replying to this letter, Secretary Gresham writes to Willis on February 7, substantially corroborating Thurs-ton's version of the interviews of Norember 14, except that he did not say in either interview that he was not at liberty to answer Thurston's ques-tion, but did say: "I cannot be more explicit at this time."

IN GERMANY.
BERLIN, Feb. 12.—A heavy gale has been blowing in various parts of Germany for several days. At Stettin, the wind was particularly severe, and caused a great deal of damage to property. The roof of the Stettin Railway station was partly wrecked and the supporting beams of the Stralau-Rum-meleburg station were badly wrenched and carried against the waiting-hall, a side of which was crushed in. An official at the station was seriously injured. Considerable damage was also done in the suburbs of Stettin.

The gale has been raging in North Germany since Saturday afternoon. Telegraph service is everywhere interrupted. Many buildings containing valuable merchandise have been sunk in the Elbe at Hamburg and several houses have collapsed, killing two oc-cupants. The damage to property is immense. It is feared other fatalities will be reported. STETTIN (Germany.) Feb. 12.—The

CONSTANTINOPLE, Feb. 12.—(By
Cable and Associated Press.) United
States Minister Terrill, after taking a
vigorous stand in the matter, has succeeded in obtaining the release of one of the two Armenians, naturalized Americans, imprisoned at Iskander, in

Northern Syria.

The Porte contended that they were Turkish subjects, and announced that it was his determination to maintain the right to keep them in prison pending trial for high treason. Terrill replied that if they were not released in a given time, he would ask the United States to send two warships to compel release.

Eight boxes of aspargus came in. Potatoes were weak at quotations, heavy stocks being on hand. Onlons were easier. There is little doing in fresh fruits. Oranges are in light demand. Choice red apples alone sell rapidly. Some strawberries are offering from the southern portion of the State. There is an easier tone in fresh butter. The receipts are not so heavy, and the demand is good. Eggs are weak, but no lower. Some sales of fresh ranch eggs were made as high as 21 cents this morning. Cheese is unchanged. The poultry market is demoralized, and prices are weak under light demand. Game came in light this morning, but was lower, owing to light inquiry.

SAN FRANCISCO, Feb. 12.—(By the Associated Fress.) There was another tumble in prices of wheat in speculative circles this morning. From the opening of the early informal session to the close of the regular session, there was a steady decline, buyers being furnished with about any amount at about any figure that was offered. Dealings, as usual, were largely in May wheat. This option opened at 1.04%, and closed at 1.01%, with one sale between as low as 1.01%, showing a decline of 2%c per cental. There is nothing doing in spot wheat, and quotations, under the circumstances, are more or less nominal, at a range of from 900324sc.

forming any valuable opinion as to the relative merits and demerits of the two systems. In a recent speech in the Senate by Senator Morrill, that gentleman brushed aside many of the clouds that have gathered around the question of protection or free trade and placed the matter in a very clear and convincing light. Senator Morrill showed that after the war in 1812 had any American statesman opposed protective tariff he would have been regarded as foe to his country. Mr. Calhoun, in 1816, as a friend of American tariff protection, hardly lagged behind Henry Clay; and Gen. Jackson, in 1824, was not less its champion than John Quincy Adams. There was then but little more than one party, and that was unanimously for "a tariff that would protect." Both Houses of Congress were Democratic in 1828, and among eminent Senators who voted for the ultra-protective tariff of 1828, and who subsequently became Democratic Presidents, will be found the names of Mar-

a. Democratic President, a veteran long in the highest service of his party. As to the reasons why American workingmen should favor protection to American industries, Senator Morrill

'Any claim of superior stamina on the part of Americans, or of doing more work in a day than any other people, is a valinglorious assumption. "In Great Britain no wage-earner ever rises to be an employer of wage-earners. In the United States it is a common occurrence and almost the rule, that the head or business manager and industrial company has risen and industrial company has risen manual." from the ranks of practical manual labor. The biographies of our captains of industry shine forth as abundantly

as the stars of the milky way.
"It has been long roundly, perhaps orantly claimed that the difference ignorantly, claimed that the difference in wages here compared with the lower British wages is compensated by the lower cost of living; but this has no basis of truth, except that the lower scale of wages practically and brutally imposes upon British wage-earners the subject of baseball, and a metropolitan paper that did not publish something like a page of matter on the subject at least once a week was coals of truth, except that the lower scale of wages practically and brutally imposes upon British wage-earners a lower and far inferior scale of living. If the provisions and comforts of life were to made equal to those of wage-earners in America, the British cost would be found excessive and insupportable. The foundation of England's large wealth was laid by a century of stringent tariff protection.

"British wage-earners, as we all know, obtain on the average, under free trade, but little more than one-half as much reward for labor as Americans obtain under protection.

"The advantages of a protective tariff are not claimed on account of its production and diffusion of wealth alone, but on account of its beneficence, its educational and civilizing influence, its educational and civilizing influence, its educational of the comforts of life among the men who work, and as the strongest arm of national independence."

These truthful, common-sense remarks should be studied by all who may be inclined to imagine that the doctrine to which they have held for many years may after all be wrong, or who are willing to give free trade a trial 'just for a change." It would be almost as reasonable to talk about having an epidemic of cholera "just for a

THAT DEEP-WATER HARBOR.

It is now stated that Mr. Huntington will not wait upon Uncle Sam for the construction of a deep-water harbor at Santa Monica, but will expend the sum of \$1,500,000 in building a breakwater at that point, outside of the big wharf. It has been all along stated by those who claim to be on the inside that the Southern Pacific would make this improvement, whether any money was appropriated by Cons or not. This is business, and the people of Los Angeles will be pleased to see such an important improvement made by a corporation which does nothing in a half-way manner, As The Times has all along said, if Santa Monica is the best point for a deep-water harbor, then that is where the vernment should expend money for the a harbor. If it is not, and the uthern Pacific Company wishes to have a harbor there, then it is manifestly proper that the company should pay for the cost of making it. It is possible that the report of Mr. Huntington may be based upon knowledge

BURBANK THEATER .- A dramati zation of Stevenson's uncanny story,
"Dr. Jekyll and Mr. Hyde," was presented at this house last night, with
Percy Hunting in the double roles, to
a rather light house, probably made so
to some extent by the frosty condition of the atmosphere. If the Burbank management would turn out the incan-

of the atmosphere. If the Burbank management would turn out the incandescents and turn on the gas its patrons would certainly be more comfortable, and it is quite probable that there might have been more of them than there were last evening.

The play is a monstrosity, and as a drama has nothing to commend it. It is weird and unnatural, and while the story is a unique bit of literature, no sufficient reason has ever yet been advanced as to why it should be put upon the stage. Its atmosphere is funegal, and there is little edification in seeing a distorted figure shifting about the boards in a half-light that is as trying to the eyes as the strained voice of the player is to the ears and the nerves.

MUSICAL MENTION. A large and fashionable audience was present at the Los Angeles Theater last night, the occasion being the second concert this season of the Phil onic Orchestra, with A. J. Stamm as director. As a whole the concer-was very creditable and was much en loved. The most ambitious number for the orchestra was Beethoven's "Symphonie" No. 5, C minor. This was wel rendered, barring the work of the rendered, Darring the Work of the French horns, which was very ungwen. The orchestra was heard to advantage in Mendelssohn's overture, "Midsummer Night's Dream," and later in the "Inauguration March" of Moszkowski's from the opera "Boabdil." A. J. Stamm was the center of attraction and to him belongs the lion's share of the evening's wasted. They are entitled to just as was the center of attraction and to him belongs the lion's share of the evening's success. His playing of Grieg's piano concerto in A minor, was very fine. The runs in the adagio movement were smooth, and passages of this were ex-quisitely given. In response to an encore he played Paderewski's "Minuel" with much expression. Was Model's much sympathy and consideration as the male devils whom they accomencore he played Paderewski's "Minuet" with much expression. Mrs. Modino-Wood won her way into the hearts of her listeners by her charming stage presence and the beauty of her volce. The accompanists were Mrs. W. D. Larrabee, plano, and M. F. Mason, organ. The conductor, A. J. Stamm, has shown indefatigable labor and enthusiasm in his efforts to bring the performance to a high grade manner in which the Los Angeles High School is being conducted threatens to become as protracted and heated as appears to be no question of agement of this institution which is en to criticism, and it would do no harm to have a little investigation of the matter. For the pupils presenting it I have nothing but commendation, but I do wish to criticize the pupils in the audience. They were rude and noisy in the ex-treme. "Interested Parent" calls attention to his superfor officer, Leroy D. Brown, who is as much out of his sphere as Mr. Cates. Back of them both stand the members of the Board of Education who put them in office. They are the parties who should be compelled to answer to the people.

But one point further. It is a common remark among the teachers of the schools that the parents are not interested and do not co-operate with them. I have been told that I was the only parent who had ever visited a certain grade. Parents cannot afford to sit at home and form conclusions from hearsay. Let every parent, where possible, visit the school and acquire personal knowledge of its methods of teaching and discipline. When this is done there will be such general interest in the subject that the selection of the Board of Education will be a matter of prime importance and men who live for the spoils of office will no longer seek the place. For back of the present Board of Education stand the people of Los Angeles, who, through neglect and indifference to their duty, permit such men to occupy office.

G. HAMILTON GRIFFIN. The Smooth Swindler Heard from in Chi-

cago.

A letter has been received at The Times office from Chicago, making in-quiries about Dr. G. Hamilton Griffin, who is in that city soliciting subscrip-tions to the capital stock of an electric

tions to the capital stock of an electric company, which company has for its object the manufacture of "medical electric generators," or something in that line.

From the tenor of the letter the oleaginous swindler has lost none of that monumental impudence for which he was noted in Los Angeles, and which even a term of years in a British Columbia prison could not subdue. The information has been sent to the inquirer that Griffin is one of the cleverest swindlers in the country, outside of prison walls, with the possible exception of one "Smoothy" Boyce, now operating in Boston, and that any one having dealings with him should have his wealth safely under lock and key, and carry a guardiam along to protect him from his seductive wiles.

Southern Ca'ifornia Day.

Southern California day and the opening of the Citrus Fair take place February 20. Gov. Markham will speak and Col. W. A. 'Harris will deliver the address of the day. M. HISTORICAL SOCIETY.

Interesting Papers Read at Last Night's Meeting.

The Historical Society of Southern California held a meeting last evening in Judge Austin's courtroom; there was a fair attendance of visitors and mem-

bers.

Mis. M. Burton Williamson read a paper, entitled "A Brief History of Conchelogical Researches in San Pedro Bay and Vicinity." Mrs. Williamson gave a brief account of what had been done in conchological researches in the last thirty years at San Pedro Bay. Several new shells had been discovered, described and named. One of these had been named by Prof. Dail for the writer. She described the planting of oyster beds in the Alamitos Bay.

planting of oyster beds in the Alamitos Bay.

J. M. Guinn read a paper on "Meteorological Myths and Superstitions." He outlined the growth of the superstition that demons have power to cause storms, and depicted the horrors of the witch-huntings, torturings and burnings that were common in Europe during the fifteenth and sixteenth centuries, when the belief was prevalent, both among Protestants and Catholics, that witches produced storms.

Theological meteorology received its death-blow when Franklin invented the lightning-rod.

The president, C. P. Dorland, delivhe lightning-rod. ered his inaugural address. He out-ined the course that he thought the society should pursue to make it a success. He appointed the various committees, and urged the members to

work.

Mr. Mulholland, a corresponding member from Inyo, stated several historical events that occurred in that county that had never been written up. Among others, the last Indian massacre that occurred in Southern California and the great earthquake of 1872.

A. W. Blair gave some reminiscences of early days in California that were interesting.

The society adjourned to the first Monday in March.

CHURCH DEDICATION.

Consecration of the Second Presbyterian Sunday was a glad day for the Pres-systerians of East Los Angeles, and, indeed, for those of that denominaion throughout the city. When a beau tiful church building is dedicated, it not only marks an advance in religion, but progress in the culture and morality

community where it is located. The large auditorium of the Second Presbyterian Church, seating 800, was well filled with the friends of the church Sunday, at 2:30 p.m. On the platforn were Revs. E. S. Chapman, W. J. Chlonester, W. S. Young, C. M. Fisher, D. R. Colmery and the pastor of the church, Rev. L. F. Laverty.

onester, W. S. Young, C. M. Fisher, D. R. Colmery and the pastor of the church, Rev. L. F. Laverty.

A beautifully-prepared programme of the dedicatory exercises was in the hands of the audience, and it was most impressively carried out.

Rev. E. S. Chapman of Oakfand, pastor of Mills College and moderator of the Synod of California, preached the dedicatory sermon, from Psalm lxxxvii, 2, "The Lord loveith the gates of Zion more than all the dwellings of Jacob." Dr. Chapman is an excellent speaker, and, without notes, delivered a sermon that will be long remembered. He dwelt impressively upon the dwellings of Jacob, which, he said, represented our homes, and spoke of the far-reaching influence of those homes; that a man's true character was manifested in his home life. God loved the tents of Jacob, but He, loved the gates of Zion, the church, even more. From a material standpoint the church is a most economical institution; better to spend hundreds in building Christian character than thousands in reformatory and penal institutions.

The secretary of the board of trustees, reported that the enlargement of the church building and furnishing had cost about \$900, and that there was a floating indebtedness of about \$200. The friends of the church rallied nobly to its support, and \$2200 was subscribed.

This church has had a wonderful growth under its present pastor. The membership has doubled in less than two years, and the seating capacity enlarged from 300 to 800, with modern conveniences for Sunday-school purposes and effective church work.

After the money had been raised the dedicatory exercises proper took place, which consisted of an impressive responsive service, dedicatory prayer by Dr. Chapman, and Tastly three beautiful anthems, rendered by a double choir led by Prof. Jeffreys.

An entertaining programme was rendered in which Capt. James P. Moore of Minnesota Commandery read a paper on "War's First Rude Alarm in 1861." His description was a fine one, especially appropriate to the ocasion of Abraham Lincoln's birthday anniversary.

There were short addresses by ex-Gov. J. L. Beveridge and Gen. Chetlain, after which appropriate vocal selections were rendered by the association quartette. Among these was "The Bummer-Man," written by Maj. W. A. Elderkin for the association and sung to the tune "Bogie Man," from the opera "Sinbad."

A piano solo by Miss Donnell added much to the enjoyment as did also one or two poems by Maj. Elderkin.

Encampment Association, went down to Santa Monica Sunday to locate the grounds. At the Soldlers' Home they were met by Committeeman Capt. Batchelder, who had carriages waiting for them. After a drive over the Soldlers' Home grounds, they were driven to Santa Monica where they met the Citizens' Committee, who showed them the several grounds eligible for eamp purposes, after which the City Park, consisting of five acres, on the north side of town, was selected. The spot is a beautiful one, being on the

line of the street-cars which run to the Soldiers' Home. The grounds are well shaded, and the committee think that it will make the finest camp they have ever had.

WHAT'S NEW IN BONNETS.

From Our Regular New York Fashion

Theater hats continue to merely outne the head and are only dainty omposed of the thinnest of gauzes or he filmlest of laces, with a band of fur or flowers to hold all together. A fancy for the moment in a bonnet has form in a band of black velvet overlaid with a band of small squares of faceted jet. A half garland of small chrysanthe-A half garland of small chrysanthemums passes around the front, supplemented by a bow of white wired novelty lace supporting an algrette made of slight feathers. These are mounted with a bow of magenta, turquoise blue or other lively color, the finish being several very small bows of black satin ribbon at the back. Strings of narrow black velvet ribbon are added, but in the greater number of these models strings are dispensed with. Another model consists of a wired bandeau of black velvet overlaid with a garland of shaded red velvet roses. These roses increase in size to the middle of the front, where a small rose spray springs up and sustains a light aigrette. Three small bows of black satin ribbon are set on the back.

The toque shown has a foundation of suede cloth with a wave brim trimmed with black feathers. To the left at the back there are three black feathers and two bunches of old gold valvet. Two jet pins run into the crown at the right. A handsome example of the milliner's art was a toque with brim of black velvet and crown of gold buillon lace. A garland of black velvet roses appeared around the front and sides and at the left of the front a couple of small bows of magenta velvet sustained a black heron aigrette. Domestic milliners are just now congratulating themselves on the fact that the recent importations of French millinery display many shapes which will not be accepted here. There is some comfort in this, too, for the woman who cannot afford a Paris hat. The Gainsborough hat is being again offered.

(A revised copy of the following beautiful poem has been furnished to The poem has been it es for publication:)

Go stand upon the mountain high, Ye lovers of eternal hills, Where rock spires salute the sky Beyond the sphere of earthly ills.

Reach the Sierri's lofty crest, Where fragra pines sway through where treath the years,
Where verdant vales in quiet rest
Where the pure snow is lost in tears. Go to the mount where rugged cliffs
Look down on scenes forever new,
Where ocean's wave its white foam

In contrast to the rolling blue. But loveller still the scene appears Where Pasadena's vale is spread, Where nature smiles through all the

years, And Flora lifts her queenly head. Now art comes forth to crown the scene And make it lovlier than before; Cottage and palace intervene, To add their charm to land and shore.

And now behold the joyful throng
That comes to pass the hours in mirth,
While weaker hearts their days prolong, And dream of rest unknown on earth. ALICE E. ROLLINS.

Susie. Oh, wasn't that nice. Was it silver or gold?
Katie. Silver, and it had the Palmer House on the handle.
If Katie's mother had visited Los Angeles instead of Chicago, the Palmer House would likely still have owned its spoon, and "for why?"
Because Kalte's ma would never have been satisfied to take a plain Palmer House spoon as a stand-off for the "tip" she gave the waiter, when she could for the same trifle have bought a real souvenir spoon at M. German's store, at No. 329 South Spring street.

Here she could have had a selection of over one hundred designs of scuvenir spoons — the plain, the embossed, the grand, grotesque, picturesque, emblematic, enigmatic, in gold, in silver, enamel, all sorts.

No matter, Mr. German was the first to bring them out on this coast, and he has ever since kept the lead. He will make you one of any design you wish, while you wait. Mark that, and you can't have anything like that done in any other store in the country.
Don't leave Los Angeles without a souvenir spoon. This is no longer a fad. It is a custom, and it is not dying out. Go to German's, No. 39 South Spring street, and make a selection of what you want to send to the folks at home.

The successors of the late grand jury, se official acts were cut short upon r proceedings being declared in-d, were duly sworn yesterday morning in Department One to do their whole duty in examining into the accounts of the various Courthouse of ficers and ferret out evidence against such criminals as might have escaped the law as operated in the usual or routine channels. routine channels. After taking the oath the "body extraordinary" retired to a room on the upper floor and immediately began deliberations.

Incidental to the administration of the oath the court made a few remarks in the way of instruction to the men chosen. He first referred to the prescribed sections in the Penal Code setting forth their duties and then went on to urge great secrey. He became very much animated as he warmed up to the subject, finally exclaiming with great emphasis: "It has happened in the history of the county that the public press of the city knew more about what was going on in the grand jury than many of the grand jurors themselves." It was evident that the judge had in mind last year's experience, when the facts about the City Bank and other matters came out in the papers before any report had been made. The remark carried with it apparently, also, as an admonition, the insimuation that the newspapers had gone beyond stating the actual truth and colored the record.

PRATT VS. MANSFIELD.

PRATT VS. MANSFIELD. The Pratt-Mansfield matter came up again in the Superior Court yesterday on several points involved in the complication of actions, one hearing being had in Department Two and another in Department Three. In the latter court under the title of Anah E. Mansfield vs. the Farmers' and Merchants' Bank, Judge York made the following order:

court under the title of Anah E. Mansfield vs. the Farmers' and Merchants' Bank, Judge York made the following order:

"The application to the court of the Farmers' and Merchants' Bank of Los Angeles, defendant in this action, for an order to substitute Annie A. Pratt in its place as defendant, and to be discharged from liability to either the plaintiff Anah E. Mansfield or said Annie A. Pratt upon depositing in court the amount of money in controversy, to wit, \$18,881.92, came on to be heard this day, when the plaintiff appeared by Messrs. Houghton, Silent & Campbell and Wells & Lee, her attorneys, the defendant by Graves, O'Melveny & Shankland, its attorneys, and the said Annie A. Pratt by E. L. Campbell, her general guardian, and Charles F. Hanlon, as attorney; after due consideration of the evidence offered and the arguments of the respective parties, the court being of the opinion that the application is one the granting of which is discretionary; also that there is pending in this court another action commenced on January 17, 1894, in which Annie A. Pratt, an incompetent, is plaintiff, and Anah E. Mansfield and John Mansfield and the Farmers' and Merchants' Bank of Los Angeles, In which an injunction has been issued and served, restraining and enjoining the removing of any part of the deposit mentioned in the complaint, and also restraining the plaintiff in this action, and that the said injunction is still pending, undetermined and undischarged; and the court being further of the opinion that the present application, even if granted, will not relieve the Farmers' and Merchants' Bank from littigation in respect of the mat-

ters in controversy in said other action.

"Now, therefore, it is ordered, adjudged and decreed that this application be, and the same hereby is, denied, without prejudice, however, to the renewal of said application at such future time as the said defendant may be advised shall be appropriate."

In the afternoon Judge Clark listened to argument pro and con on the motion of Mr. and Mrs. Mansfield to set aside justification of the sureties on the bond given on the injunction against the bank and the above-named defendants, in the action previously commenced. The motion was taken under advisement.

commenced. The motion was taken under advisement.

HAD NO AUTHORITY.

The Supreme Court has decided that a county clerk individually has no power to make a contract for printing which will blind the county by which he may be employed.

In July, 1892, the Board of Supervisors fixed the price for printing the Great Register of San Diego county at 15 cents per name for the first 500 copies and 75 cents for each additional copy. On August 26 W. M. Gassaway, then County Clerk, contracted with plaintiff to print the register at the prices fixed by the board. On September 26, and before any of the copy had been furnished, the plaintiff, Gassaway, was superseded as such clerk by C. W. Thompson, who refused to permit Eugene Frandzen, who had been previously engaged, to print the register, and employed other parties to do the work. Frandzen brought an action to recover damages from the county for breach of contract. The cause was tried by the court and resulted in findings and judgment for the plaintiff, whereupon an appeal was taken.

The holding of the Supreme Court, in reversing the judgment, is that the County Clerk is the clerk of the Board of Supervisors, and, by the code, is charged with the duty of preparing the Great Register, and that heving performed this duty that he is also charged with the printing of the register. But this provision did not necessarily imply that he had the power to contract on behalf of the county for the expense of the printing. Unless the clerk was authorized to make the contract, the county could not be held liable for a breach of the same.

ANOTHER REVERSAL.

In the complaint in the action stated that the defendant and one Challis, on

1892, was engaged in to

Ana, having shops at both places. On the date mentioned the plaintiff purchased their business for \$4650, paying the further sum of \$600, upon condition that Kling and Challis would not engage in the same business, directly or indirectly, for a period of three years, in or near either town. On September 19, 1892, Kling, contrary to the agreement, started a butcher shop in Santa Ana. Brown at once brought suit for an injunction and \$500 damages. A demurrer to his complaint was sustained, however, on the grounds that facts sufficient to constitute a cause of action were not stated. Brown refused to amend his complaint, but appealed from the judgment entered against him in consequence. The Supreme Court is of the opinion that such contracts are not against public policy, and believing, therefore, that the demurrer should have been overruled, assert that such an order be entered.

therefore, that the demurrer should have been overruled, assert that such an order be entered.

Court Notes.

Judge Van Dyke yesterday ordered the restraining provision in the case of Sarah E Potts et al., vs. J. S. Baker et al., modified in accordance with a certain agreed stipulation filed. By consent the cause of Varlel vs. Gincher has been continued in Department Two for the session.

N. Erickson, Fred Dern, J. D. Foley, J. P. Knox, Albert Martin, C. H. Long, William Drew and Charles Smith appeared before Judge Smith yesterday and were arraigned on a variety of charges, ranging respectively from burglary to assault with a deadly weapon. Orders have been made in respective cases by the Supreme Court as follows: Phil Follenbach, appellant, vs. E. C. Schnabel, respondent; action on claim and delivery; judgment affirmed. First National Bank of San Luis Obispo, respondent, vs. M. F. Henderson, et al., appellant, saction on an account; judgment affirmed. E. W. Webster, appellant, vs. San Pedro Lumber Company, respondent; action to recover money; judgment affirmed. Redondo Beach Company, respondent, vs. California Loan and Trust Company, appellant; action to quiet title; judgment affirmed.

Frank Martin, the Antelope Valley burglar, entered a plea of guilty to the charge preferred against him yesterday, in Department One, and was sentenced to serve three years in San Quentis.

Dist. Atty. Dillon made argument on his demurrer to the answer in the suit brought by him in the name of the county for an injunction restraining the Auditor from issuing and the Treasurer from paying the demand of License Collector Hodgman, yesterday before Judge Van Dyke. The position taken by Mr. Dillon in the case is that the office of License Collector is a public office, and that such being the case the Supervisors had no right to create it.

When A. D. Andrews, the youth who was recently convicted of having mailed obscene letters, appeared before Judge Ross in the United States District Court yesterday morning to receive sentence, his

Another communication from the Board of Health stated that the motion of President Teed, that the attention of the board be called to the stench arising from the Cudahy packing-house and that the board be requested to report to the Council whether or not the same be a nuisance, had been referred back to the Council without recommendation.

This course did not prove agreeable to the Councilman from the Seventh Ward and a vote being taken on the motion it prevailed.
President Teed evidently felt that he had in a sense been trodden upon, for a few minutes afterward he called another member to the chair and moved that crosswalks be placed af the following street intersections: Adams and Severance, Adams and Portland avenue, First and Grand avenue and Eighth and Grand avenue. Adams and Severance, Adams and Portland avenue, First and Grand avenue are all Eighth and Grand avenue. It was moved to refer to the Board of Public Works, but President Teed smiled a wise smile and said it would be unfair to do so after not acting that way on Mr. Strohm's crosswalk motion. He believed the course of not referring such motions to the Board of Public Works before acting on them to be an unwise one, but as the Council had adopted such a course then it should so act on his motion.

THE CURB PUT IN LINE.
The Street Superintendent reported
in the matter of the instructions to
him to notify C. J. Ellis to remove In the matter of the instructions to him to notify C. J. Ellis to remove that portion of the sidewalk and curb that projects into Twenty-third street opposite his premises. The report stated that in reply to his (Street Superintendent's) notification, Mr. Ellis had stated that at the time of receiving a former notice about one year ago, the present Board of Public Works, together with the City Engineer and several members of the City Council personally inspected the premises, and expressed themselves as well satisfied with the present condition of affairs. Mr. Ellis had also stated that if the city wants the sidewalk and curb removed after the inspection of the proper authorities, that the matter has passed out of his hands. The Street Superintendent, therefore, asked further instructions in the matter. On motion, the Street Superintendent was directed to cut the sidewalk and curb so that the same will be in line with the street.

The City Engineer reported as here-tofore published in the matter of the majority protests against the widening of First street, between Main and Los Angeles streets. Action deferred for

of First street, between Main and Los Angeles streets. Action deferred for one week.

The Engineer further reported:

"In the matter of the petition of Miss L. J. Hammond and others, filed August 28, 1893, praying for the abatement of the nuisance caused by water running in the gutter on the west side of Pearl street south of Seventh street, I find that the mouth of the culvert crossing Seventh street on the west side of Pearl street is about seventy-two feet distant from the zanja manhole in the sidewalk on the west side of Pearl street, south of Seventh street, there is fall sufficient to drain the water into the zanja. I would, therefore, recommend that a twelve-inch vitrified pipe be laid joining the culvert with the manhole. The expense of doing the work, the city furnishing the pipe, would not exceed \$25."

Referred to the Engineer to ascertain the amount of surplus earth in the street.

"In the matter of the petition of E. Bouton and others, asking for the narrowing of Adobe street, between College and Benard streets, I have made a map of said street between said points showing the proposed lines thereon, and I awalt your instructions as to the location of the lines of said street." The Finance Committee reported recmmending that a certain tax-sale certificate be canceled in accordance with petition of Elizabeth A.

The committee further seported the folloying:

"Your committee beg leave to call your careful attention to the condition of the cash fund, which is the general fund of the city. There was provided in the annual tax levy for this fund the sum of \$168,629.54, and there has been received from other sources up to the first day of February, 1894, the sum of \$339.03, making a total of \$162,028,57, exclusive of \$3000 received from forfeited ehecks] and \$12,000 transferred from the salary fund, which amounts do not enter into the figures herewith submitted.

an available monthly balance of about \$1570 for expenditures such as stationery, lumber, job printing, meat, vegetables, bread, groceries, and coal for City Prison, tool-sharpening, black-smithing, repairs, feed, and general suplies for the street department, coal for heating the City Hall, repairing paved streets and other general expenses, chargeable to this fund.

"The demands and transfers from this fund from the 1st to the 8th of February amount to \$11,353.14, or the full amount of the monthly average with the larger part of the regular monthly expenditures outside of payrolls still to be presented, which will increase the expenditures to from \$3000 to \$4000 in excess of the allowance, and while this amount includes \$2000 of the \$6000 transferred from the cash fund to the employment fund, the expenses properly chargeable to this fund will exceed the monthly estimate by at least \$2000.

"The facts herein presented warrant us in stating that if we anticipate ending the fiscal year without an overdraft on this fund, expenses must be curtailed to the lowest possible point, and that such concerted action as your honorable body may deem advisable to accomplish this result be taken at the earliest possible moment.

"We would recommend, in view of these facts, that the City Clerk be instructed to notify all departments of the city government that they must administer their departments within the amounts allowed them in the annual estimates, as no transfers will be made to cover deficits in their funds; and that the Clerk notify all departments and city officers that under no circumstances must any goods be purchased or labor furnished without first having obtained the necessary authorization."

This was referred to the committee of the whole.

"In the matter of the sommittee, we beg to report, that since this question was first presented to the Council by the Merchants' Association, demands have been made upon the funds of the city which were unlooked-for at that time, but which the case of humanity required the m

ouried the municipal authorities to recognize.

"In the matter of providing work for the unemployed, the city has expended about \$10,000, for which no provision was made in the annual estimates, and all of which money has been expended in our own city in providing food and clothing and shelter for many who would otherwise have been in want for the necessities of life.

"As stated in another portion of this report, it will be necessary to practice the strictest economy in order to finish the fiscal year without a deficit in the several funds and to invite such a deficit by removing this source of revenue at this time with no source from which to provide for the amount of license removed we cannot help but feel would work a great injustice on the people of the city and stop the proper administration of the affairs of the municipality.

"We believe that this association,

"We believe that this association, composed of the best men of the community, willi appreciate these facts when properly placed before them, and we do not believe it unbecoming in this Council to appeal to them to assist the municipal authorities by paying this license, which is comparatively small in each individual case, but which in the aggregate amounts to a large sum, until the time for fixing the next annual levy, when proper provision can be made for its removal, rather than by forcing the city into a position of enforcing its collection, thereby adding a temporary embarrassment and additional expense to the city as well as to themselves.

a temporary embarrassment and additional expense to the city as well as to themselves.

"In view of these facts we recommend that the City Clerk be instructed to invite the members of the Merchants' Association to meet the Council in an informal discussion of this matter on Wednesday, February 14, 1894, at 10 colock a.m., in the Council chamber."

Councilman Strohm was the only one who opposed the adoption of the report. He said he could not see how the Council could possibly take off the tax. He opposed any such action when the matter was presented to the Council before. It seemed to him to be the wisest thing to do to "take the bull by the horns," and let the merchants fight it out if they want to.

The report was adopted by a vote of the other members present.

The report of the committee also contained the following section, which the clerk did not read, he announcing that it contained the signature of become member of the committee:

THE UNEMPLOYED.

Councilman Nickell presented the fol-lowing table, and said it was desired to know what the Council wanted to do in the way of hiring men after Wednes-

longer time. The work done on First-street hill had been very satisfactory, and with the force working there, nearly one load of dirt per minute had been taken away. He moved that sixty men and twelve teams be kept em-ployed there after Wednesday, the men to be selected by the Citizens' Commit-tee.

men and twelve teams be achtered to be selected by the Citizens' Committee.

Councilman Nickell said he believed he had in the past four weeks learned some things about the matter. He had been surprised to see how well the men had worked for \$1 per day. They had, he believed, done as well as men could be hired to do for \$2 per day. In most cases he thought the city had got the worth of its money.

Councilman Gaffey said it was a question whether, if the present force were to be kept on First street for two or three weeks the street would then be in shape so that the chain gang can go on and cut it down to traffic grade in any reasonable time. Mr. Gaffey admitted, however, that he had not visited the hill since the men were put to work there.

Councilman Campbell suggested that the present force be kept working till Thursday night and that the Council meet on Thursday and take further action on the matter.

Councilman Nickell said that in all the time the city had been keeping men at work, not \$1 had been received from private individuals in aid of the movement. Although at first he had had some doubts, yet he had become convinced that nearly all of the moveking were deserving. If all of the hundreds of men working are turned off this week it will be a serious thing for the city.

this week it will be a serious thing lost the city.

The suggestion of Councilman Campbell was finally acted on. The Labor Commission was authorized to employ the present force for one day after Wednesday and it was ordered that when the Council adjourn it do so till 10 o'clock Thursday morning.

CITY CLERK'S REPORT.

The City Clerk reported: "The commissioners to assess the benefits, damages and costs consequent upon changing the grade of Burlington avenue from Arnold street to a point 163 feet south of the south line of Maryland street on Saturday, February 10, 1894, filed their report thereon in my office. It will now be in order to fix a day for all persons interested to show cause, if any, why such report should not be confirmed by you, which day cannot be less than thirty days from Tuesday, February 13, 1894." March 12 at 2 p.m., set for time of hearing.

On report of the City Clerk that it would be in order so to do, final ordinances were passed for the following: Sewering Hope street between First and Third streets; grading and redwood curbing Fourth street between Lucas avenue and Fifth street; grading and redwood curbing and cement sidewalking Union avenue between Pico and Sixteenth streets; grading the alley in block H of the Bonnie Brae tract between Eighth and Ninth streets.

The City Attorney presented the draft of an ordinance making it a misdemeanor for any contractor or other party when repairing paved streets to use brea or any old material that has previously been used. The ordinance was adopted.

JUMPED THE TRACK.

Serious Accident on the Electric Road—One Man Badiy Hurt.

A serious accident occurred on the Westlake branch of the electric railway at First street and Fremont avenue, about 7 o'clock Sunday morning, one of the axies of a west-bound car breaking, while running down hill, causing the car to jump the track and turn over. Fortunately, owing to the earliness of the hour, only one passenger, the car to jump the track and turn over. Fortunately, owing to the earliness of the hour, only one passenger, A. J. McPhail of Lancaster, was in the car at the time, or the result must have been much more serious. As it was, however, it was bad enough, for Mr. McPhail was severefy injured, both externally and internally, and both moturner and conductor were badly bruised and shaken. The injured passenger, who sustained an ugly cut on the right temple, was so jammed between the seats when the car turned over, as to render the task of extricating him a very difficult one. He was conveyed as soon as possible to the Regelving Hospital, where Dr. Ainsworth attended him, but as the full extent of his injuries could not then be determined, and it was necessary that he should have most careful nursing, Mr. McPhail was subsequently removed to the Sisters' Hospital.

The injured man, who had just arrived in town, was on his way out to visit his daughter, who resides on Rockwood avenue, when the accident occurred.

SANTA MONICA.

Work Begun on Ocean Front Park—Camp Ground Chosen—Local Notes. C. Swagger was on hand on Monday and put half a dozen men at work trimming the trees in Ocean Front Park. There was no lack of applicants for work but the beginning was made with six. The force will be increased later. The eucalypti will be pretty closely topped, in order to better their shade qualities, and before work is discontinued the park will be graded and ornamented. It is a work which meets with the general aproval of

the community.

The Lewis-Noon litigation, which promises to rival the Recordership contest in being long drawn out, concluded another chapter in Justice Twichell's court on Saturday. Z. G. Peck appeared for the plaintiff and R. R. Tanner for the defendant. A Jury heard the testimony, and near midnight decided for the defense. There is talk of appeal. The only point involved is one of wide application. Does the timber in shade trees, located in the street, belong to the abutting lot-owner? In this case, the value of timber in controversy was but \$6, and the jury decided that Noon need not pay for it. The attorneys supplied a brief chapter to the proceedings Saturday night that was not down on the programme.

Interest in Street Paving Revived-Santa Fe Time-card.

Interest in street-paving has suddenly been revived by the announcement that the Councilmen are practically a unit on the proposition of paving Second street and the cross streets. Matters have progressed far enough to state for a certainty that Pomona has gone through the last winter when the streets will be covered with mud and filth. The Council is beginning early, so that all obstacles will be removed by the coming summer, when the work will be done. Nothing but the good old Democratic times caused the people to wade through the mud this winter. All arrangements were about ready when the panic struck the country, and the work was then abandoned. The work can now be done more cheaply than ever before, and the property-owners are falling right into line signing the petition to the Council. The work will be of perhaps the same material as the crosswalks on Second street, viz: of asphait with a concrete base. It is probable that Second street by Demonstration of the Council as the crosswalks on Second street, viz: of asphait with a concrete base. It is probable that Second street will be paved from Louisa to Rebecca, and the cross streets for one square on each side of Second street.

The Board of Supervisors met Monday morning with all members present. H. A. Peabody and John McFadden, as a comnittee from the Chamber of Commerce, appeared before the board and asked that the jars now in the possession of the World's Fair Committee be turned over to the Chamber of Commerce. The reest of the gentlemen was granted, but the jars are to be subject to the order of the board.

In the matter of a new road in the Placentia road district, the hearing came on regularly and upon a conclusion of the evidence the prayer of the petitioners for the road was granted, and it is understood that the petitioners are to do all the grading that is necessary on the west gully of the proposed road and that the grading is to be done to the satisfaction of the board.

Supervisor Tedford stated that he invostigated the matter of fencing up the road, previously referred to, in the Newport road district, and reported favorably to its being closed. Upon motion, the road was ordered closed, subject to the order of the board.

The board then adjourned to February 26, at 10 o'clock a.m.

DECISION REVERSED.

The Supreme Court has reversed Judge Towner's decision on the demurrer in the suit of A. P. Brown vs. Theodore Kling, to recover damages on a contract for the sale of a butcher shop in this city. Kling sold his business to Brown and agreed not to start another similar business here. The latter part of the agreement he broke, and on the demurrer Judge Towner decided that the contract was not drawn in accordance with the requirements of the code, and that consequently Brown could not recover damages. The decision is now reversed, and the suit comes back for trial on the facts.

Felix Ward, a young man who has been living near this city for the past several years, was arrested early Monday morning on a charge of stealing several head of cattle out of a pasture near Santa Ana. The cattle belong to a man named Parker.
Ward was quite well known in the country west of Santa Ana, and his arrest is a great surprise to his acquaintances. The officers claim that they have a sure case against him. Ward is out on \$500 bail to appear tomorrow before Justice George E. Freeman for examination.

THE PROSPER STILL STATIONARY.

The lumber schooner Prosper is still aground on the sand-spit at Newport. The pumps are working, and thus the water that finds its way into the hold through a hole in the hull is kept down quite well. The steam-tug Collis from Santa Monica was on deck awaiting the arrival of the Warrior from San Pedro, when both tugs would make ready to pull the vessel off the bar sometime during the night, when the tide would be at its highest. If the vessel cannot be moved now, the captain wil probably wait until next Saturday when the highest tide of the morth will occur. The vessel is resting easy, and if the weather continues calm a delay of several days will not hurt her. Capt. Hansen says that as soon as he gets his vessel to sea he will go to the Seund and bring another cargo of lumber to Newport. The Prosper is a fine, large, four-masted schooner, and has a capacity of over 1,000,000 feet of lumber. It is thought that but little trouble will be experienced in getting her to sea as soon, as everything is made ready for the trial.

REDLANDS.

The San Jacinto school squabble was given another big turn Monday by the decision of Judge Noyes, in which the REDLANDS.

Perhaps nothing so well marks the position Redlands is taking among the points of interest towards which Eastern, people are now and will eventually turn, in California, as the per cent, of prominent people visiting this Coast this season, who make Rediands one of their stopping places. There is scarcely a person of note who has been in the State thus far this season who has not visited Redlands. This was not so last year. The "Gem City" is becoming known as the beautiful city of the coast of gold.

REDLANDS BREVITIES.

Some time ago at a meeting of the County Board of Education the names of fifteen pupils were ordered stricken from the rolls of the grammar school at San Jacinto, the pupils hav-ing passed through the grades of the school. Mrs. M. J. Copeland brought suit against Prof. Edward Hyatt to compel him to admit her two sons, William and Lewis Copeland, to the

taken most if not all the course but there were studies taught that each wished to review. The court held that each wished to review. The court held that as the boys were between the ages of 6 and 21 years and had done nothing to cancel their privileges in that respect they are entitled to enter the grammar school and pursue such studies as are taught there, and it was ordered that their names be restored to the rolls of the school. It is claimed that these and thirteen others were excluded from the grammar school in order to force them into the High School. The decision of Judge Noyes is so broad as to admit all the fifteen scholars to re-enrollment in the grammar school.

SANTA BARBARA COUNTY.

Coursing With Greyhounds—Business in the Courts.

The unsettled weather prevented a large attendance at the fair grounds on Saturday to witness the coursing match, in which some of the most noted hounds in the State took part. This sport is a novelty in Southern California, but, has been carried out with considerable success in the Northern part. A fair sprinkling of sportsmen from Riverside, Pomona, Pasadena, Fresno and other counties were in attendance, but the event was not sufficiently advertised to draw a large crowd. Ten lively jackrabbits were shipped from the San Joaquin plains, each rabbit being turned loose separately and given a certain start. The hounds were unleashed in couples to compete for honors in each chase. King Richard was the hero of the day, entered by F. H. Seeley of Pomona. This hound won 35 ponits, the only competitor approaching this figure being imported Ray, entered by Louis Ruiz, with 20 points. Camille, entered by J. H. Clancy, made a good third, with 15 points in her favor. The stag hounds did not distinguish themselves, their forte being pertinacity over long distances, not a short, sharp spurt. Harry Blake officiated as judge.

Joe Goods, allas Joe Bona, and wife, from Spring street, Los Angeles, are not the kind of visitors Santa Earbara is yearning to receive. They arrived here some six or seven weeks ago, decently attred. Their first victim was the proprietor of the Ortega House. A week of gratis board and lodging obliged them to seek other fields. The Western Hotel was found available for lodging and the Central and Thayer's restaurants for board for a limited period. When these places wearled of the no-pay system, with a semewhat diminished wardrobe the Ogram House was done out of a week's board and lodging. One or two victims of these frauds had succeeded in obtaining possession of articles of clothing in lieu of cash, making the addition of fresh triumphs exceedingly difficult. Accommodation was next sought, and, strange to say, found, at the the New Bngland Restaurant, for a limited time, and the moral which points this tale is to be found at No. 123 West de la Guerra street, where this precious couple are at the present moment, successfully working this confidence trick. The specific offense for which the two men are "wanted" here is the buncoing of an Italian named T. We were all greatly surprised as the days went by to note that she did not seem to be at all depressed, as most people are during the first weeks of abstinence from the drug. She seemed as bright and cheerful as on the first day. I said to her once:

"You don't seem to miss your oplum?"

"No," she said, with a smile; 'it did not have such a hold on me as I thought it did.'

"One day, after she had been there over a month, we discovered by mere accident what kept her so cheerful. One of our attendants caught her in the act of taking oplum. When we asked her where she had obtained the drug she refused at first to tell. After a little urging, however, she told us that she had brought a lot of oplum with her.

"The matron searched her room, and when she came to the office to report she was almost speechless with amazement. The woman had hidden little packages of opium in every conceivable part of all her dresses. There was opium in the sleeves, in the ruffles, in the lace, in the lining and in every pocket. There was opium sewed inside her garters and in her undergarments. She even had opium in the papers which she used to curl her hair.

From San Jose Mercury, Jan. 19: "Recently a severe attack of la grippe confined me to my bed; it caused me great difficulty in breathing, and the path in my back and limbs was almost unbearable. I could not turn myself without help: I thought it would require months for my restoration, but by the use of Jaffe's Electric Pain Expeller and Jaffe's Intrinsic Tonic I was cured in one week.
